Skills

PROGRAMMING LANGUAGES

C++, Java, Python,
JavaScript

WEB DEVELOPMENT

JavaScript, MERN stack

TOOLS & TECHNOLOGIES

Firebase, React, Node.js, MongoDB,
Chat GPT, Express.js, VS code, API
Integration, MySQL.

OTHERS

Data Structure and Algorithms,
GitHub, Problem Solving

LANGUAGES

English, Hindi, Marathi

Projects

2023-NOW E-Commerce Book App

- Developed a **MERN stack app** with a decent UI and with good backend development.
- The website can handle **multiple users**.
- The features included login and authentication of users along with user can also post books for purchase or for rent. I have used advanced technologies such as mongo DB.
- This app is integrated with stripes payment platform and also has features of add, delete from cart.
- Tech Stack: MERN stack with react redux.

2023-NOW Notes App

- Developed a full stack notes app with robust and scalable backend and an UI that will fulfill customer's every need.
- It saves the notes in device storage permanently. We also have feature of dark-light mode for user friendly UI.
- Tech Stack: React-JS and CSS.

2022-NOW News App

- Developed a **News App** in which we can get and search all news across the world using an open source API.
- Tech Stack: HTML CSS with Node JS.

Achievements/Certificates

- **LeetCode**: Solved **100+** questions on LeetCode's platform.
- **5 STAR** in C++ (Language Proficiency) at **HackerRank**.
- **99.22 percentile** in MHT-CET.
- Volunteer in **PICT-PCSB** (Coding Society).
- Active member in **IEEE PICT**.

Courses

- Basics of C++ with **Data Structures and Algorithms**.
- The complete 2023 **Web Development** Bootcamp.
